Target Markets

Miami
Palm Beach
Florida Keys

The Fresh Market operates with an atmosphere of an old world European Market, where you can visit an array of departments. The open air feel of the market presents a feast for the senses as colors and fragrant smells fill the atmosphere and classical music wafts through the air.

The Fresh Market draws an affluent clientele who are very loyal to the brand and tend to visit more frequently than a traditional supermarket - thus increasing traffic at every location we join.
